## REPORT OF SCHOOL BOARD.

---

### *To the Citizens of Stoddard:*

In our schools during the year 1904 matters have gone along smoothly, as a general statement, but with some unsatisfactory things arising to be settled in the manner that seemed best. There has been a large amount of money expended this year for the support of schools, and it may seem that the results do not compare with the expenditures. Yet it is not always easy to measure results. Nor is it always possible to do what would seem the wisest plan to pursue. In providing school privileges for the scattered population of so large an area as Stoddard, a school board finds many difficulties in the way.

The education of our children demands some sacrifices on the part of the parents, and it seems to us there is less disposition to make them in these days than there was in the past. As educational advantages increase, and as responsibilities for providing for their children are removed from the parents, a loss of interest seems to result, so that the standard of scholarship in our schools seems to have lowered. This is no fault of the teachers, but is due partly to pupils leaving school at an earlier age, and to other causes for which we offer no remedy.

In the spring the scholars near the Sullivan line were schooled in Sullivan at a cost of \$3.50 per week, by agreement with the school board of that town. In the fall the Sullivan school board did not maintain a school where these pupils could attend, so arrangements were made whereby the two children of D. E. Sweet were

taught 12 weeks by their brother, Perley E. Sweet, at \$2.50 per week, and Mrs. Dyer's boy was sent to East Sullivan, it being agreed to allow something for part of of his board. Here was a difficulty that was met in what seemed about the only way, when animated with the desire to see equal school privileges provided for all. George E. Reed's two children were sent to Marlow, with the cost of tuition and conveyance. Wm. A. Hobbs was appointed agent of the school board to enumerate the children of school age in October, and reported 24 girls and 25 boys, between the ages of five and sixteen years.

Three schools have been maintained in town, (not including the tuition by Perley Sweet), during the year, taught by five different teachers, and aggregating 65½ weeks in all, and have been attended by 50 different pupils. The school board have made 39 visits in all, and there have been 155 other visitors during the year.

In detail, the report is as follows:

#### SCHOOL No. 1—CENTRE.

Both terms were taught by Mrs. Maude A. Page of this town with her usual success as an instructor. The school prospered and the pupils made good advancement. For the spring term of 11 weeks, whole number of pupils attending 19. All studied reading, writing, spelling and arithmetic, 12 geography, 10 grammar, 9 physiology, 8 history and one composition. Cases of tardiness, 2. Number of visits by schoolboard 7, by citizens and others 30. Number on roll of perfect attendance 6. Wages of teacher per month \$30.

For the fall term of 11 3-5 weeks there were 20 pupils. All attended to reading, writing, spelling and arithmetic, 14 studied geography, 12 grammar, 12 composition, 10 physiology, and 5 history. Instances of tardiness 2. Visits by members of school board 8, and by citizens and others, 22. Number on roll of perfect attendance 8. Wages of teacher per month \$30.

## SCHOOL No. 2.—(NEAR MR. POLLARD'S).

The spring term was begun by Miss Bessie P. Fish of Duxbury, Mass., but things were so unsatisfactory that at the end of six weeks, Miss Fish tendered her resignation, and Mrs. Lillian Corey finished the term of 9 weeks. Whole number of pupils attending 8. All attended to reading, 7 to writing and arithmetic, 6 geography and spelling and 1 grammar. Cases of tardiness 6. Number of visits by school board 6, by citizens and others 27. Wages of teacher per month \$22. The fall term of 10 weeks was kept by Miss Julina B. Howe of Dublin, with very good success. The term was made shorter than intended, on account of the heavy snow storm early in the season. Whole number of pupils 8. All attended to reading, writing and spelling, 7 studied arithmetic, 6 geography and grammar, and 1 composition. Number of cases of tardiness 0. Visited by members of school board 4, by citizens and others 9. On roll of perfect attendance 6. Wages of teacher per month \$22.

## SCHOOL No. 3—SOUTH STODDARD.

Both terms were taught by Miss Adelaide M. Higgins of Berwick, Maine, a teacher of experience and one who is earnest, painstaking and thorough in her work, and she spared no effort to make the school a success. The scholars made good advancement, as the examination proved.

In the spring term the whole number of pupils attending was 20. All attended to reading and spelling, 19 writing, 17 arithmetic, geography and composition, 10 grammar, 3 history and physiology, and 2 natural history. Cases of tardiness 36. On roll of perfect attendance 2. Visits by members of schoolboard 8, by citizens and others 29. Wages of teacher per month \$31.

The fall term consisted of 14 weeks and was attended by 21 different pupils. All studied reading and spelling, 20 writing, 17 arithmetic, 9 geography and grammar, 5 history and composition and 13 natural history. Cases of

tardiness 21. On roll of perfect attendance 2. Visits by members of schoolboard 6, by citizens and others 38.
